

BS
COLLECTION
— ITALY —

CONCEPT

In the DNA of BS Collection lies the search of Elegance, in which we find harmony and simplicity. Even in their Baroque reinterpretations, you can glimpse the search for creative purity. Completely "Made in Italy", their productions make use of skilled workers, who, with decades of experience in ceramics production, have reached a very

high level of perfection, so as to be able to work with glazes and precious lustres, as much refined as difficult to produce.

The use of fine gold and platinum make these productions eternal. These objects are not just ornamental, but they will become, over the years, family objects.

working for elegance since 1969
