BE PART OF IT!

As light is slowly glistening on the horizon after the massive impact of the Covid pandemic on our lives, we are proud to present to you our new sales catalogue 'Elephant Parade Around the World'.

The aim of Elephant Parade has always been to bring the message of hope, positivity and creativity through art. We believe in the power of our elephants to help paint a brighter future for all, as for more than ten years our free art exhibitions and miniature painted elephants have generated millions of smiles all around the world and supported elephant welfare.

This catalogue is more extensive than ever with the addition of beautiful new designs from new and established artists. But also by offering new product lines, of which the *Decorate your Own* series, metallic elephants, new Disco Disco colors and wooden designs.

With the introduction of these new product lines, we are pleased to introduce two additional price categories on top of the two existing ones. One price category (A) at the lower end of the market for simpler designs and one price category (D) at the higher end of the spectrum for designs that are very complex.

With this stretched price range, we are confident that we will be able to reach a wider audience and enthuse them with the work we do, namely raising funds and awareness for the protection of Asian elephants and their environment and ecosystems.

In this catalogue you will also find a varied range of classic designs, the so-called 'Special Import', of which we offer you the possibility to order directly ex-Thailand at adjusted conditions.

We thank you from the bottom of our hearts for being a loyal customer and we hope the 2022/2023 'Around the World' collection brings joy to you and your network.

Best regards,

René de Wit
Director, Elephant Parade

**LET'S
PAINT A
BRIGHTER
FUTURE!**

Elephant Parade® is a social enterprise and runs the world's largest art exhibition of decorated elephant statues. Created by artists and celebrities, each Elephant Parade statue is a unique art piece. The life-size, baby elephant statues are exhibited in international cities and raise awareness for the need for elephant conservation.

Limited edition, handcrafted replicas and a select range of products are created from the exhibition elephants. 20% of Elephant Parade net profits are donated to elephant welfare and conservation projects.

Be part of it.

Mosha with her prosthetic legs at FAE 2019

HOW IT ALL BEGAN

One of Mosha's prosthetic legs.

“WE WANTED TO HELP MOSHA & CREATE SOMETHING STRUCTURAL THAT WOULD BE PROFITABLE IN THE LONG RUN. THIS IS THE ONLY WAY IN WHICH WE CAN PROVIDE THE ELEPHANT A SUSTAINABLE FUTURE”

Marc & Mike Spits

Elephant Parade was founded by Marc Spits in 2006.

Whilst on holiday in Thailand, Marc met a baby elephant named Mosha, who had lost part of her leg after stepping on a landmine. Mosha inspired Marc and Mike to create Elephant Parade.

The first Elephant Parade exhibition was held in Rotterdam, The Netherlands in 2007. Friends of the Asian Elephant Hospital, Mosha's home base in Lampang Thailand, was the first organization to receive contributions generated by Elephant Parade and structurally continues to receive funds for taking care of Mosha.

HAND- CRAFTED REPLICAS

EACH ELEPHANT
PARADE STATUE IS
A UNIQUE PIECE OF
HANDCRAFTED ART!

After our first Elephant Parade exhibitions, it became very clear that many people loved our elephants. But unfortunately, not everyone could afford to purchase an original life sized baby elephant. So we decided to reproduce the elephants into replicas so that our elephants were accessible to a larger audience. And they could take a special memento from our exhibitions with them.

All our replicas are hand-crafted in Chiang Mai, Thailand by a team of skilled artisans. Not every parade elephant is re-invented as some elephants are too detailed or the style is too complicated. Prices vary due to the complexity of the design.

Elephant Parade makes a selection of which elephants will be reproduced for retail, always in agreement with the original artists.

Please note that there are different price ranges within a particular replica size. This is because some designs are more complex and take more time to make.

ONCE UPON A STAR

FAE Hospital in Lampang

Khun Soraida Salwala, the founder of FAE.

Mosha means star in the Karen language and is the name of the world's first elephant to have received a prosthetic leg after having lost a limb to a landmine on the Thai-Myanmar border.

When Mosha was only seven months old, she was walking in the jungle with her mother, a logging elephant, when she stepped onto a landmine and lost part of her right front leg. Mosha was fortunate to have had a mahout who cared and had resources enough to contact Friends of the Asian Elephant, home to the world's first elephant hospital, where she was rushed to. Her life was saved and her wound treated, but Mosha began to shun both food and company.

Mosha was not the first and won't be the last elephant, or man, to be injured by landmines. A worrying 16 of Thailand's 77 provinces are still affected by landmines, and Friends of The Asian Elephant (FAE) Hospital has treated over a dozen such injuries over the years.

Again, chance and fortune led to a meeting with Dr. Therdchai Jivacate an orthopaedic surgeon who made Mosha her first prosthetic leg from plastic, sawdust and metal, which has the ability to support her weight (adult elephants weigh around 5 tonnes) as well as offer her mobility, much needed in an active and naughty young elephant!

As Mosha has grown, she has had to be fitted with a new prosthesis and now at 14 years old, she is a healthy and vibrant young elephant with a long life ahead of her. She will need a new prosthesis every year until she stops growing at 20 years old.

MOSHA IS THE INSPIRATION FOR ELEPHANT PARADE.

WE HAVE PLEDGED TO SUPPORT HER FOR THE REST OF HER LONG & HAPPY DAYS.

WE LOVE MOSHA GLOBAL

Artist: Diana Francis

Mosha is the inspiration behind Elephant Parade and is the centrepiece in all our Elephant Parade Collections. She has a prosthetic leg just like she has in real life! For every parade, there is always Mosha with the host city painted on her front left leg.

ELEPHANT FAMILY

Elephant Family is Elephant Parade's charity partner. They are a leading charity for Asian elephants, a species which has lost 95% of its habitat and 90% of its population in the past 100 years.

Supporting over 160 projects across Asia since their foundation in 2001, Elephant Family has funded projects in six of the 13 remaining elephant range states: Cambodia, India, Indonesia, Malaysia, Myanmar and Thailand.

They work with world-renowned conservation experts to deliver the best possible defence against the destruction of Asian elephants, and the diverse wildlife that share their habitat.

They believe in creative conservation. Hosting large-scale public art events in order to mobilise public concern is at the core of our strategy. If the endangered Asian elephant is to survive, our efforts must be both fun and fearless. To win support it's plight must become known.

IN THE EYE OF THE BEHOLDER

Artist: Kristian Vodder
Svensson

Laren 2017

The creation of this elephant is an image of life seen through the eye of an elephant. A life, which in many aspects, is affected by humans and human activity. The painting illustrates the way humankind continuously is taking up the elephants' territories creating an imbalance and unequal relationship between humans and elephants.

THE JOURNEY

Artist: Mirjam Binggeli
Swiss Tour 2020

Two worlds – connected by history – united by one goal. The Journey symbolizes how the Knie Family brought the first elephants to Switzerland in 1920. Traditional silhouette patterns run across all sides of the elephant describing their way from Asia to Switzerland. The Journey is a playful elephant. It's an elephant that connects not only past and future, but also two opposing worlds that work together to protect the species.

BLOSSOM & BIRDS

Artist: Joanna Martin
UK National Tour 2013

As a painter and an artist, Joanna takes lots of her inspiration from her other loves - gardening and wildlife. She is never happier than bringing these elements together, particularly on a 3D canvas. The apple blossom and birds are all from her garden so the design has a real personal touch.

EKO

Artist: Paul Kidby
London 2010

The design for v is influenced by Indian patterns in a palette of blue and golds; a vine grown from the bottom of the trunk up and over the elephants back in a living canopy like an exotic blanket. Swinging amid the branches are orang-oetans to reflect the sponsoring charity The orangutan Foundation.

KIKU

Artist: Chris Chun
UK National Tour 2013

Kiku is based off one of my paintings which was inspired by an antique kimono fabric I bought in Japan. One of the things I love about kimono fabrics is the rich colours, decorative embellishments and dramatic layout of patterns. I also added butterflies as they symbolise hope and freedom. It's my way of wishing for elephants to be able to live in a safe and protected environment.

NIMA NIMA

Artist: Mayoly Ruiz
Southampton 2021

Ignorance makes our differences bigger such that tolerance, understanding and peace become more difficult to have. I think we are living in a very hard moment because we are losing attention to what matters, and what matters is not related to the amount of money or social recognition. What really matters comes wrapped in paper of smiles, kindness and care.

Morro De Amor Pelo Rio
by Ziraldo
Rio de Janeiro 2018

BRASIL

A GRANDE SEREIA

Artist: Thuany Kohlbach
Florianopolis 2015

In a seaside setting, with beautiful beaches and diverse beauties, lies a mystical creature with long, colourful hair: The Great Mermaid. Thinking of the current search for the ideal female body and inspired by the refusal of aesthetic standards, I combined the figure of the elephant with the imagery of the mermaid, breaking the idea of what beauty is related to size. The character Ariel, of The Little Mermaid, was the initial inspiration.

GARDNERFANTE

Artist: Victor Hugo Marques
Florianopolis 2015

The project is based on the Theory of Multiple Intelligences of Psychologist Howard Gardner. This theory takes into account the various abilities of a human being, not only the logical-mathematical knowledge, proposing a more humane and individualized education.

PSYCHO ELEPHANT ANTROPOFÁGICO TROPICAL

Artist: Fernando Guimarães
& Tons da Terra
Florianopolis 2015

I want people to reflect on each picture I drew: ancient symbols of Brazilian indigenous groups. I always have new inspiration, with figurative vocation. Sometimes my inspiration comes from my pottery, sometimes from painting. I mix everything and out comes a bit of what you are seeing here.

ELEPHANT IN THE SPOTLIGHT

Li Bingbing is a Chinese actress and singer who created an elephant for the Dana Point 2013 parade.

One Hundred Flowers

by Li Bingbing
Dana Point 2013

“One Hundred Flowers, painted by Henri Ly at Li BingBings request. The design of this ele is based on the idea of ‘100 APRICOT FLOWERS’ by Li BingBing. Li BingBing wanted the elephant to be feminine and beautiful. She was filming Transformer4 in the USA and aimed to sign the completed elephant with the title “One Hundred Flowers” because she has won the Hundred Flowers Awards in 2008, which is the Chinese equivalent of the Oscars, and the apricot blossom is her birth month.”

COLOURING BOOK

by Studio Chiang Mai

Let's enjoy the details of the beautifully decorated, life-size, baby elephant statues from Elephant Parade. Every year, decorated elephants are displayed in major cities around the world to draw attention to the desperate situation of the endangered Asian elephant. The cheerful, creative, decorated elephants and the beautiful, unique paintings, lend themselves perfectly to be coloured in. The intricate colouring pages guarantee hours of serenity and colour fun!

POINT OF SALE MATERIALS

A6 Fun fact

A6 How it all began

Elephant Parade retail

Elephant Parade has a standard set of POS materials which must be used wherever any of our Elephant Parade products or replicas are sold.

As well as our product/replica price tags, we also have included interesting fact and photo materials to give our customers a more enriching and inspiring retail experience. These must be used in conjunction with each other.

The number of POS Materials you use depends on the retail space available. We do not want our POS materials to detract from our elephant replicas and products.

We have a range of different sizes - A4, A5 and A6 for maximum flexibility. All POS must be printed full bleed. It is not permitted to have a white border on any POS.

We recommend using clear plastic T-Stand, which allows you to use two different POS at the same time (front and back of stand) for greater versatility.

All POS materials can be downloaded and customised from our DropBox Folder. Please contact your sales agent for further information.
